Understanding of e-Resources – A Case Study of Libraries in Chennai

V. Viswanathan

Abstract

With the exponential growth of ICT, libraries are facing new challenges; new competitors, new demands, new expectations and a variety of information services from users tailored to their wants and needs. This study seeks to examine the Library professionals awareness, concept and experience on e-resources. Questionnaire method was adopted. Sixty questionnaires were distributed among the selected library professionals working in Engineering Colleges and Universities in Chennai. Forty seven responses were received and analyzed and the same have been discussed in this article.

Keywords: e-resources, Awareness, Library Professionals, Case Study, Chennai.
