English Communication Skills – A Prime Factor in Employability in India

T. Senthamarai¹ and Dr. M.R. Chandran²

Abstract

The study on English communication in relation to employability has received much attention in recent days. Excelling oneself in communication is still a nightmare to many young graduates. English communication skills are needed not only for employment but also for successful retention in workplace. The paper discusses the necessity of enriching communication skills. It also discusses some of the models and brings out few recommendations for better English communication.

Keywords: English Communication, Communication Skills, Communication Competence, Employability.
