7.1.3

The Institution has facilities for alternate sources of energy and energy conservation

Biomedical Waste Management

Biomedical waste causes health hazards due to its infectivity and toxicity. Therefore the College aims at avoiding generation of waste or recovering as much as waste as possible, rather than disposing. In the Microbiology laboratory, the biomedical waste is decontaminated through the process of sterilizing and incinerating. Liquid Waste Management

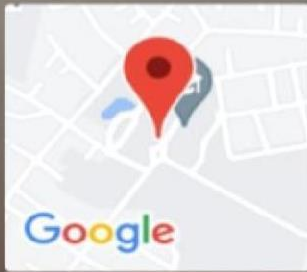

Decontamination of Biomedical Waste through Sterilization And Incineration
