e-WASTE MANAGEMENT

The volume of e-waste generated in the College increases every year with the increase in the number of courses introduced every year. The College addresses this problem by adhering to the e-waste management rules, launched by the government. Thereby it collects e-waste and channels it to an authorized computer dealer and e-waste recycling operator in the town, by signing an MoU with them and by refurbishing the working and valuable components of otherwise damaged devices. Old monitors and CPUs are thus repaired by our technician and reused.
