(2015-2018)

The Syllabus for B.Sc Zoology, and UGC-COP Certificate, Diploma and Advanced Diploma courses in Sericulture were discussed in details and the following corrections were made.

The Board of Studies members felt that hours of each subject <sup>(core)</sup> in Semester I and II should be equal.

They suggested that one more hour to be allotted to Core (2) 4, 5 and 6 instead of 3 hours, as per the Course structure.

This additional one hour was taken from the allotted three hours ~~of~~ of the practicals in the 1<sup>st</sup> and 2<sup>nd</sup> yr only. In the first year and Second year the practical hours may be reduced to two hours. (i.e) following the old pattern.

At the 15<sup>th</sup> semester, Core 6 - Biochemistry and Instrumentation title may be changed to Biochemistry.

In the Core paper 7, the Combined paper Animal Physiology and evolution may be splitted.

Animal Physiology as a single paper in Core 7 and Evolution is combined with ecology in Core 4.

Like that in Core 8, the Genetics and evolution may be splitted and retain Genetics as a single paper in Core 8.

NMS - ornamental fish culture and Apiculture with other be introduced.

✓ major corrections were made in Core 8, <sup>and</sup> Core 4, minor corrections were made in all the remaining Core papers.

Developmental and Experimental Zoology title may be changed to Developmental Biology in Core paper

3. COP - minor corrections were made in the first paper Adv. dip in sericulture.

Suggestions from the BOS members

1. Recent editions of the book and the year should be updated
2. Instead of animal dissections, virtual dissection may be incorporated in the syllabus.

3. Each unit of the syllabus should be titled with sub headings.

4. members of the board, again recommended to start post graduation in Zoology.
