Organised by
Department of Business Administration
Sadakathullah Appa College
(Autonomous)

Reaccredited by NAAC at an 'A' Grade with a CGPA of 3.40.

An ISO 9001 : 2015 Certified Institution

Rahmath Nagar, Tirunelveli - 627011, Tamil Nadu.

NWSDA-2019

About the Institution

Ever since the British period the twin towns of Tirunelveli and Palayamkottai, intersected by the Perennial River Thamirabarani, have been great centres of learning. The Tirunelveli district has a sizeable Muslim population which necessitated the need for an institution of higher education. Due to the dedicated and sincere efforts of the Muslim elite, a College of Arts and Sciences, named after the renowned Arabic scholar Sadakathullah Appa, was started in 1971. The motto of the College is "My Lord, Vouchsafe Me Wisdom". The College is located on a 40 acre sprawling campus and is run by Sadakathullah Appa Educational Society. It was first affiliated to Madurai Kamaraj University for 20 years. With the birth of the Manonmaniam Sundaranar University in 1990, the College was affiliated to it. It became co-educational in 1997. The College serves with a vision of providing quality higher education to all, especially the Muslim, both men and women, and other deprived, disadvantaged, underprivileged sections of the society. It is equally committed to inculcate the students with spiritual and moral values. The College aims at producing holistic personalities by introducing globally relevant subjects and instilling in them aptitude for learning, internalizing best practices, institutional culture and commitment towards community.

About the Department

The department of Business Administration, Sadakathullah Appa College, denoted as DOBA-SAC was established in the year 2006. It offers the degree course in Bachelor of Business Administration. It offers a certificate course in Marketing Management. The objective of BBA programme is to provide high quality education in management. The department encourages continuous quality interface with industry through projects, workshops, seminars, guest lectures etc.

About the Workshop

To address challenges and opportunities in the field of research, and to help researchers conduct research in an accurate and meaningful way, numerous software products have been developed. SPSS is one of the most popular software used by researchers widely as SPSS has enabled academicians and researchers to obtain valuable information from the data. Basic knowledge of SPSS is vital for all users before they proceed to surveys and data analyses.

SPSS is a widely used program for statistical analysis in social science. SPSS is a powerful tool of data analytics, reporting and modeling software. It is the data analytics software package of choice for people who need to analyze large amount of quantitative data and is used as a standard by a wide range of users who need to quickly and accurately carry out statistical analysis of data such as market researchers, health researchers, survey companies, government, education researchers, marketing organizations and data miners.

SPSS functionality ranges from simple plots and charts to much more sophisticated statistical tests. Although very broadly applicable, SPSS is a very well-suited to analyzing survey data. It has a very broad range of applications from the relatively simple calculating frequencies and creating lists and charts to the far more advanced like variance analysis, multivariate statistical analysis and cluster analysis. It is also useful in building predictive models. This Two - day workshop is for beginners with little or no experience in SPSS for Windows who want to acquire the skills and knowledge in equipping themselves with the basics of SPSS.
