Lake Clean-Up

Date: 08.04.2025

The Red Ribbon Club (RRC) of our college actively participated in a Lake Cleanup Volunteering Event organized by the Environmentalist Foundation of India (E.F.I.) on 08.04.2025, at Moorthi Nainar Kulam, Tirunelveli.

This community-based environmental initiative aimed to raise awareness about the significance of conserving local water bodies and maintaining ecological balance. A total

of 47 RRC volunteers enthusiastically participated in the event, contributing their efforts to clean and restore the lake surroundings by removing garbage, plastic, and other waste materials.

The event was smoothly coordinated by Mr. K. Ganesh Kumar, RRC Program Officer of our college, in collaboration with Mr. S. Maharaja, Project Manager at the Environmentalist Foundation of India (E.F.I.). Their joint efforts ensured the successful planning and execution of the event, while also encouraging active student engagement.

This volunteering experience inspired the students to take greater responsibility for environmental protection and fostered a sense of civic duty and teamwork.
